

Neuroscience and the Soul

Thursday, November 3 7:00 p.m.—8:45 p.m.

University of St. Thomas, OEC Auditorium

2115 Summit Avenue, Saint Paul, MN 55105

Theologian **Dr. Paul Gavrilyuk**, University of St. Thomas, will give a brief historical overview of how the soul has been understood over the centuries.

Neuroscientist **Dr. Adam Johnson**, Bethel University, will speak about recent developments from a scientific point of view and show images of brain scans.

Response by **Dr. Thomas Sullivan**, Emeritus Professor, Philosophy, University of St. Thomas, showing how human conceptual ability implies something immaterial about us.

Audience questions and answers will follow.

Refreshments will be served at a reception after the event.

Admission is free and open to the public
Sponsored by UST Theology Department and
Science and Theology Network (STN)
